

WHICH AVENUE FOR YOU...?

Rectangular Madison Coffee table finished in the renowned Florentine Gold specialist steel finish.

Sleek and visually appealing, there's a new Tom Faulkner catalogue about town. Like the TF Collection itself, the *Avenues* brochure embodies sophistication and elegance, a staple for this world-renowned brand.

Each page is an informative visual experience revealing the diversity of *Avenues*. It showcases the four different styles – *Lexington*, *Madison*, *Siena*, and *Apollo*. Choose between a variety of beautiful steel finishes, adapt the material on top – from the amazing Rosso Luana marble to aged bronze plate, and customize the size to suit any space.

The strength behind the *Avenues* Collection is born in the strong lines, and seamless finishing by Tom's team of highly skilled craftsman in his Wiltshire workshop.

Avenues will fit seamlessly in to any interior. As Le Corbusier once stated of a table made by his friend Jean Prove: "The table is so perfect I haven't even noticed it yet".

Avenues - designed by you, built by us.
