

### *AVA Bronze Garden Table*

The AVA was created by Tom with Chris Beardshaw for the Morgan Stanley garden at the Chelsea Flower Show in 2019. Bonding glass to bronze is not recommended for outside, so to overcome this problem we made the long arms that extend from the top of the table to hold the glass in position. There are small triangular details at the end to match the design of the table. The bronze has a “Scorched Earth” patination that Chris chose to go with his beautiful garden, and the leading edges are slightly polished for contrast.

#### **Materials:**

Bronze

Finishes: Bronze Patina - Scorched Earth

#### **Lead Time:**

8 Weeks

#### **Product Dimensions**

Height: 75cm/29.5in

Diameter: 140cm/55.1in
