

Albany Rectangular Mirror

The Albany is a striking mirror inspired by the works of Dutch artist, Piet Mondrian. This modern rectangular mirror looks great when hung horizontally above a sofa or sideboard. If you're looking to draw the eye upward, the Albany also works well placed vertically above a console table, contributing to a sense of scale and spaciousness. Because all our designs are made-to-order, it's possible to opt for a bespoke mirror with custom dimensions, plus your choice of finish and standard or antiqued glass. You can browse our full range of standard and specialist options on our website.
