

### *Ariel Stool*

Our Ariel stool takes form as a spellbinding ribbon of spun steel. The design is topped off by a plush seat, upholstered with soft sheepskin. It's a light, elegant design with an uplifting hint of playfulness. This short metal stool is contemporary, yet versatile, with a timeless look that shines in traditional and contemporary interiors, alike. Despite its spring-like structure, Ariel is a sturdy stool that's built to endure, with a strong steel base that can be finished in any of our standard or specialist options.
