

Balzac Side Table

The Balzac side table reflects Tom's interest in geometric and sculptural forms. It's a testament to the dualistic qualities of metal as a material, combining both precise malleability and strength. The body is made of sheet steel, with a choice of bronze or brass top plates available, from polished, to brushed, to patinated. You can explore our full range of finishes and materials here. If you're looking to create a cohesive set, we'd suggest exploring the rest of our Balzac collection as well.
