

Cloud Bench

This contemporary upholstered bench recasts the Cloud shape in a new form. It works beautifully when combined with other pieces from the collection, like the floor length mirror or 'kintsugi' console. The legs are made in steel, which takes on a blackened finish when heated and a craggy yet crisp surface when hammered. Each spear tapers as it approaches the floor, producing an elegant, contemporary quality. You can personalise this bespoke bench with your choice of upholstery for the cushioned top.

Materials:

Base: Hammered steel Upholstery: Sheepskin, COM, COL

Finishes: Standard, Specialist

Lead Time:

10 Weeks
