

Cloud Cheval Freestanding Mirror

The Cloud shape is irregular, yet refined, with soft lines surrounding crystal clear glass. The crisp, metallic frame of the mirror merges with a clean-cut base, which introduces a continuation of the flowing shape above. Two leaves of metal fall open like the pages of a book to create a supportive structure for the full-length mirror, bringing an added sense of intrigue to this functional element of the piece. We'd recommend using this freestanding mirror in a dressing room to bring a design-forward lift to the ritual of getting ready for the day ahead.
