

Cloud Mirror

The Cloud mirror floats above the world of right angles and straight lines. Framed in metal, this contemporary mirror looks great in an entryway or above a console table. The silhouette of this organically shaped mirror is inspired by the irregular form of a cloud as it extends across an open sky. It's available in any of our standard or specialist finishes, as well as our technicoloured 'Butterfly' range. To really make this cloud shaped mirror sing, opt for antiqued glass – available to see here. You can take a deeper dive into how to select the right mirror for you on our Journal.
