

### *Golden Edge Dining Table*

The Edge dining table was inspired by Richard Serra's sculpture, "The house of cards", a piece where massive pieces of steel lean against each other. This version of the Edge dining table is similar in that there are no welds at all. It is totally self-supporting with the two end pieces leaning in towards each other and resting on the centre bar.

### **Product Dimensions**

Height: 75cm/29.5in  
Width: 100cm/39.4in  
Length: 220cm/86.6in

### **Materials:**

Steel and Amber Coloured Glass

Finishes: Gold Plated

### **Lead Time:**

8 Weeks
