

### *Lexington Rectangular Mirror*

The Lexington is our most minimalist mirror. It makes a clean, contemporary addition to any space with its impossibly thin metal frame. We make each one to order and can do so to the dimensions of your choice. This rectangular metal mirror is available in any of our standard or specialist finishes, which you can explore here. For an added mark of distinction, we can fit the mirror with antiqued glass, or keep it simple with clear glass. We offer the Lexington in a round format as well, giving you plenty of options to suit your space. If you'd like a bit of inspiration when it comes to selecting a mirror have a look at our Journal.
