

Lily Console

This contemporary console table reimagines our signature Lily silhouette in a new and captivating format. The metal body takes on an asymmetrical, undulating form with a beautiful sense of softness. It traces a portion of the Lily footprint, pairing beautifully with other designs from the collection to create a harmonious interior design scheme. We find it's particularly effective in our hand-painted specialist finishes, which are shown off to stunning effect, catching the light with every curve. For the top you can select the material of your choice from our full range of options, from crisp Ebonised Oak to characterful Rosso Oribico marble.
