

### *Papillon Rectangular Coffee Table*

This rectangular coffee table with rounded corners reimagines the rambling, organic lines of our Papillon design in a larger, longer format. It marries the practicality of a rectangular coffee table with the soft, curvaceous quality of its circular counterpart. The result is a design centrepiece that maintains a fluid quality, facilitating flow of movement through its environment. You can opt for one of our energising metallic or powdercoat finishes, or go bold with a specially developed 'Butterfly' colourway. To really catch the eye, add a dichroic glass top, which infuses light with technicolored inflections as it filters through.
