

### *Papillon Double Pedestal Dining Table*

Our Papillon collection merges delicate metalwork with captivating materials. The marble or glass top extends across two spring-like bases, giving it a grander scale than our classic single-pedestal design. The format of the top falls somewhere between an oval and a rectangle, producing a long, pill-shaped dining table. It works beautifully as a statement dining table, where its pedestal format simplifies seating arrangements by removing table legs from the equation. The Papillon also makes a great a feature piece in a larger kitchen. This contemporary dining table can be crafted to your specifications and completed in any of our standard, specialist, or 'Butterfly' finishes. Simply get in touch should you wish to discuss all of our opportunities for customisation.
