

### *Phoenix Dining Chair*

Three spears of steel nest together in an hourglass format, splaying out to support the seat of our Phoenix chair. Each of the legs is forged in a triangular shape, tapering as it approaches the floor. The Phoenix collection finds inspiration in George Nelson's famous 'Marshmallow' sofa, with spindly legs and a buoyant, circular seat. It carries a slightly mod flavour into the contemporary era, with a circular seat and backrest coming together in a sleek and streamlined format. Explore more of the Phoenix collection to combine elements for a cohesive look.

#### **Materials:**

Steel frame upholstered in COL, COM or TF leather  
Finishes: Standard

#### **Lead Time:**

10 Weeks

#### **Product Dimensions**

Height: 93cm/36.6in  
Diameter: 46cm/18.1in Seat  
Height: 49cm/19.3in
