

Phoenix Round Coffee Table

Phoenix was inspired by the crisp lines and refined elegance of 1970s Italian metal and glass furniture. This contemporary coffee table is formed of three tapered triangular spears made of steel. They meet at carefully calibrated angles to create the base of this sleek, minimalist design. The Phoenix coffee table has a clean look to it in any of our standard steel finishes, topped off by a circular glass top. The base can also be made in hand-polished bronze for a heightened sense of materiality.

Materials:

Base: Steel or Hand Polished Bronze, Top: Glass

Finishes: Standard

Lead Time:

10 Weeks
