

Siena Round Side Table (Avenues Collection)

Siena is a strong and distinctive design with solid clean lines. Like Madison and Lexington, it's part of our hugely popular Avenues collection and can easily be tailor-made to your the measurements of your choice. You can choose from a wide selection of specialist or standard finishes, which can then be combined with a glass or marble top. If you do opt for marble, we'd recommend a look at our tips on how to care for a marble tabletop.
