

Siena Square Side Table (Avenues Collection)

Siena is a strong design with solid, clean lines. It's part of our Avenues collection, which has gained favour among interior designers for its stylistic simplicity and quality of craftsmanship. The Siena is similar to other Avenues side tables like the Lexington and Madison, though it has a thicker bar width for added gravitas. We can custom make the Siena side table to bespoke dimensions and complete it in a wide selection of standard and specialist finishes. For the top, you can choose from an array of glass and marble options. Explore our full offering of finishes and materials to find the right combination for you. If you do go for a marble top, we'd suggest familiarising yourself with how to care for a marble tabletop.

Materials:

Frame: Steel, Top: Glass or Marble

Finishes: Standard & Specialist

Lead Time:

10 Weeks
