

### *Vienna Carver Dining Chair*

The Vienna carver chair merges elegant, Art Nouveau-inspired curves with a clean, modern aesthetic. Its dynamic silhouette is beautifully proportioned, with a slim yet deceptively comfortable seat. The legs are water cut from steel plate, imparting a strength that belies the chair's delicate appearance. It's a design-forward piece that you can really sink into, as only a dining chair with arms can be. If, however, you're looking for a more pared-back iteration, our Vienna chair without arms is a great alternative. To get a deeper sense of the Vienna's origins, have a look at our Journal post on Art Nouveau-inspired Furniture.
