TOM FAULKNER

Tom Faulkner

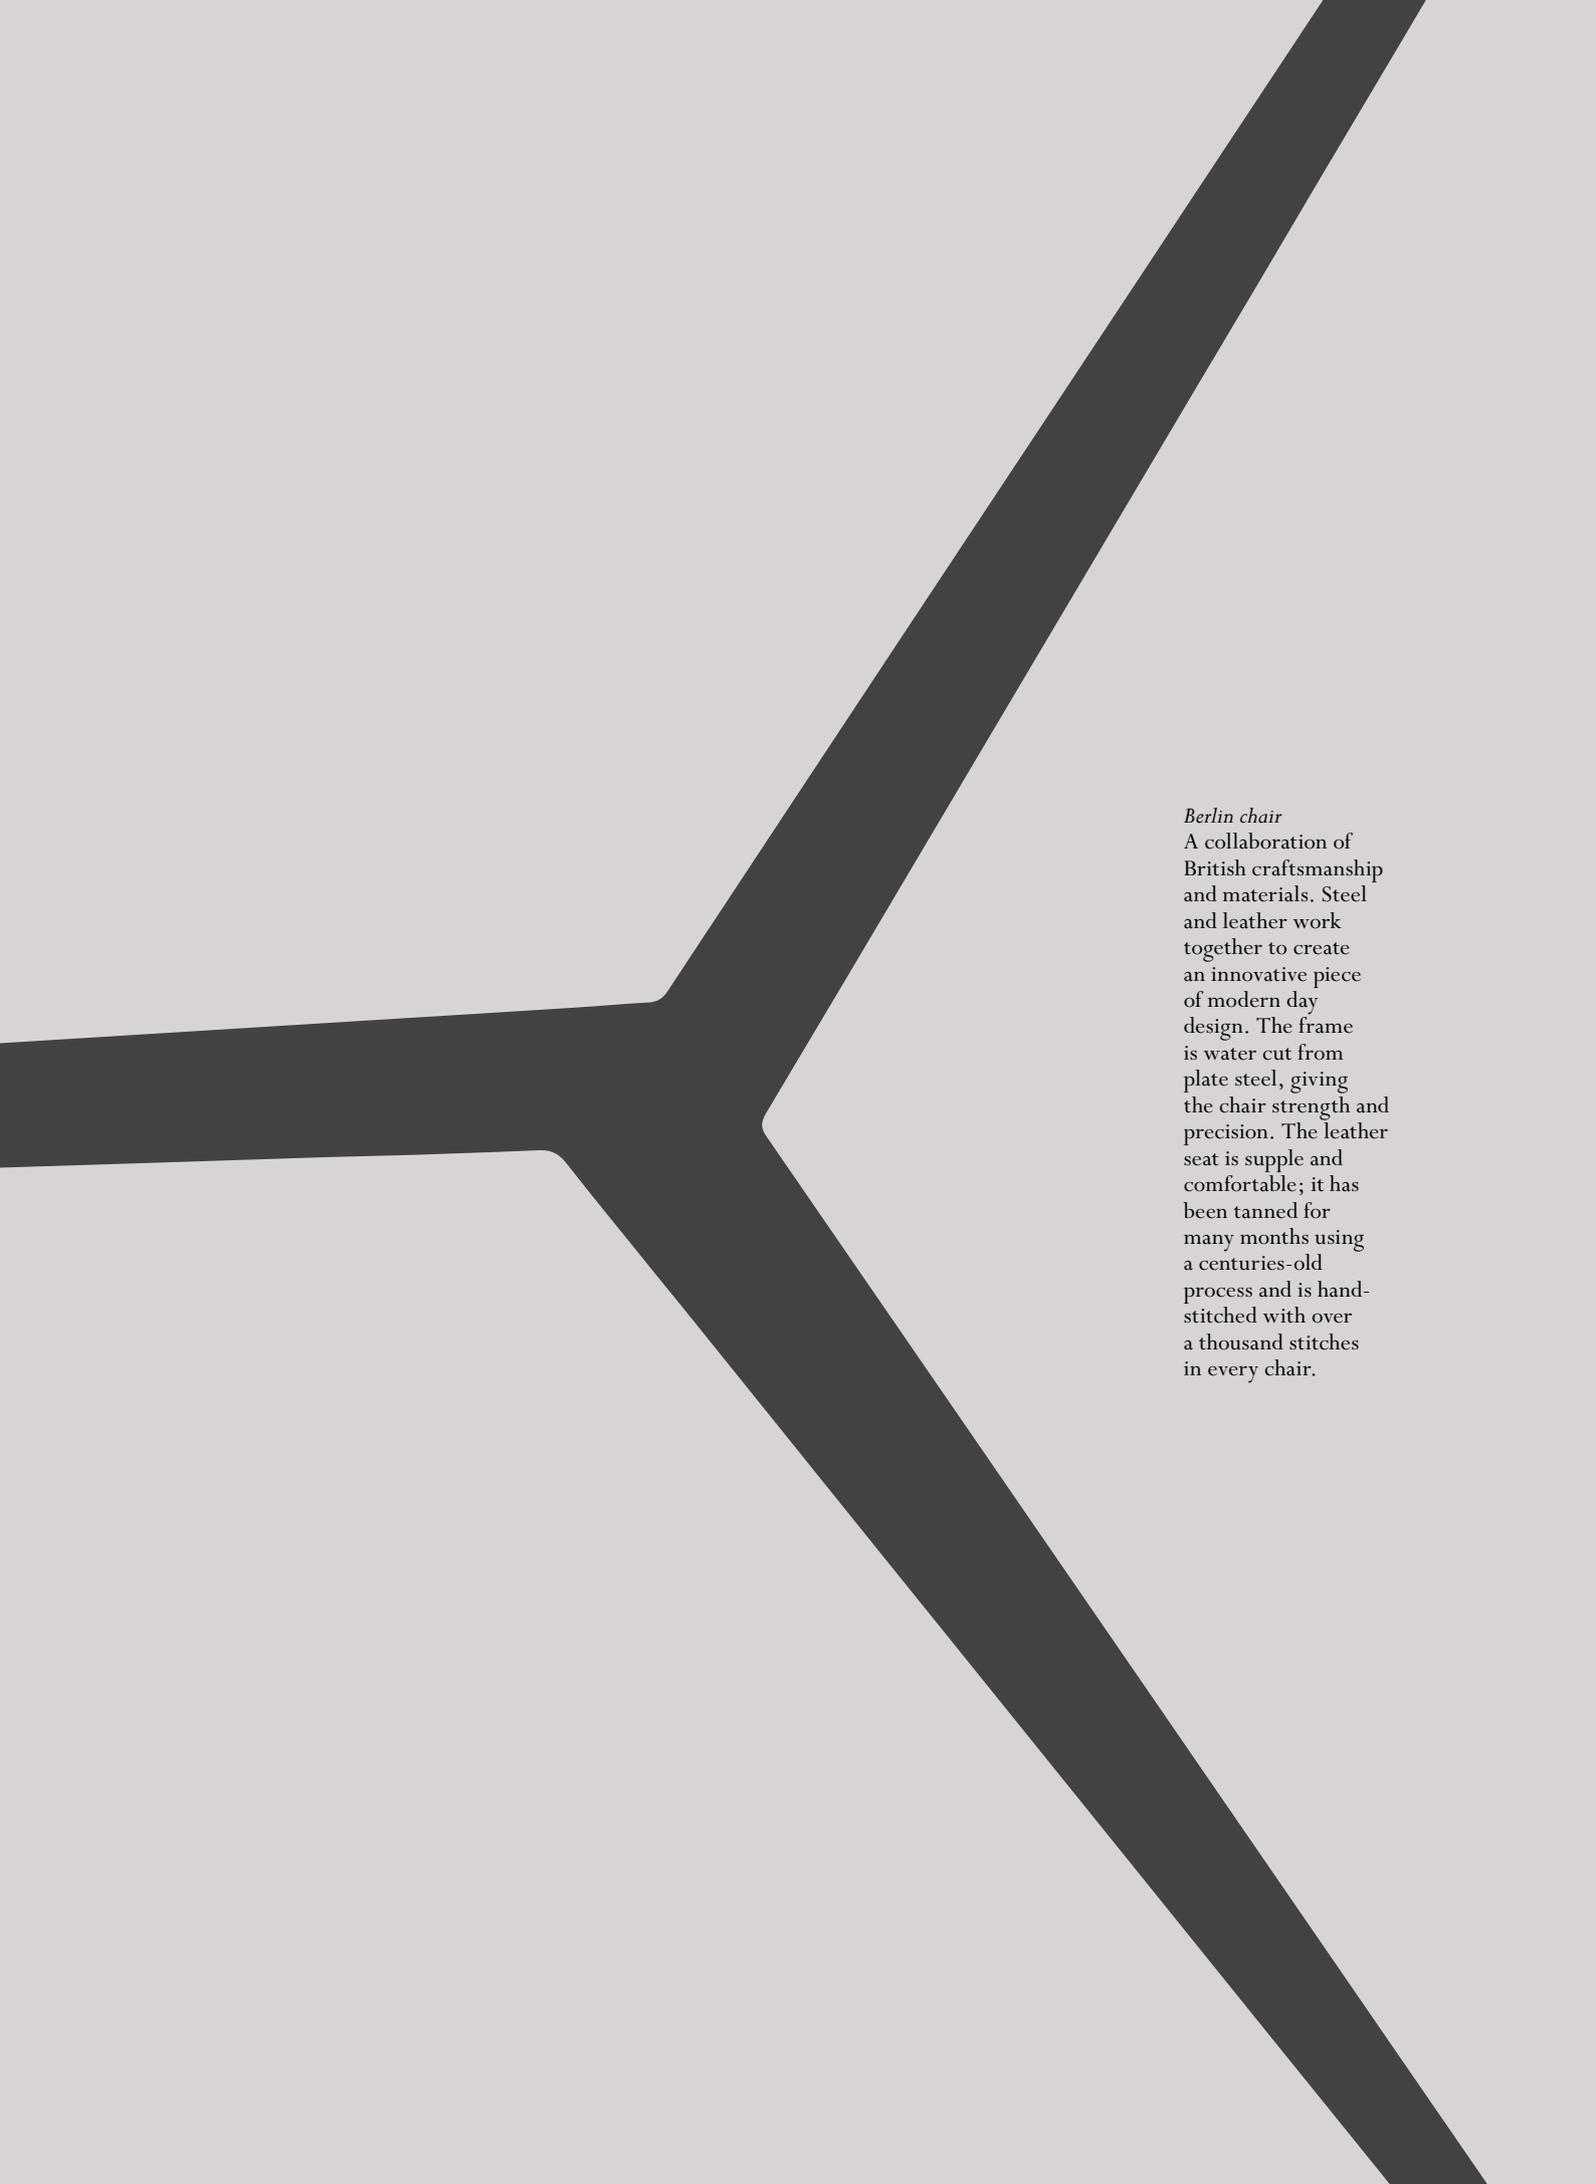

Tom's work is striking for its distinctive silhouettes and strong motifs. Ornament is kept to a minimum allowing the economical lines, harmonious proportions and sculptural forms to speak for themselves. Graphic shapes and sweeping curves create a bold and elegant aesthetic that is both unusual and refreshing.

The Tom Faulkner showroom is in Chelsea, London and almost all of Tom's furniture and accessories are handmade in England in his Wiltshire workshop. His team of skilled craftsmen combine traditional and modern techniques, and is dedicated to producing work of the very highest quality. Every piece is made to order, and most designs can be fully customised, with an outstanding selection of beautiful materials and finishes to choose from.

AVA round dining table
Strong, sculptural,
and very distinctive.
The top floats above
two intriguingly
linked tetrahedrons.
Its circular shape
is the perfect foil
for the crisp angles
beneath.

Here, *AVA* has a Lilac
marble top with
a chamfered edge.
The base is made
of bronze. The stone's
soft veining and
smooth pale expanse
contrast with the dark
blue-grey patination
of the base.

Berlin chair

A collaboration of British craftsmanship and materials. Steel and leather work together to create an innovative piece of modern day design. The frame is water cut from plate steel, giving the chair strength and precision. The leather seat is supple and comfortable; it has been tanned for many months using a centuries-old process and is hand-stitched with over a thousand stitches in every chair.

Many of Tom's team
have worked with
him for many years.
They have a wealth
of experience, and
a depth of knowledge
that is second to none.

Galena vases

An elaborate arrangement of facets and angles create these geometric pots and vases. They are shown here in various specialist finishes.

Exe dining table
One of Tom's most distinctive silhouettes, *Exe* is shown here in natural finishes - a patinated and waxed steel base, and a book-matched solid elm top with natural, waney edges.

Echo chair

The *Echo* swivel chair's shell-like back is made of several faceted panels, upholstered in leather, which cocoon the sitter in comfort and style. The tapered legs complete the architectural lines and reinforce the mood of modern elegance.

Opera side table
With flowing lines
and sinuous curves,
the art nouveau
inspired *Opera* side
table appears to float
up from the ground,
creating a sense of
movement and drama.
It is a delicate and
original design, shown
here in 'Florentine
Gold' specialist finish.

Candlesticks
Modern and minimal,
the *Capricorn*
and *AVA* candlesticks
are sculptural
objects. Shown here
in polished bronze,
polished stainless steel
and patinated steel.

Vienna chair

Combining elegant art nouveau inspired curves with a cool mid-century aesthetic, *Vienna's* perfect proportions and dynamic silhouette create a sense of energy and flow, while rigorous engineering ensures absolute comfort.

Echo dining table
Designed with
the intrinsic properties
of steel in mind,
the graphic folds
and sharp angles
give this table
a dramatic presence.
Like a modern

sculpture, it needs
to be seen from
all sides to be fully
appreciated.
Here the black
patinated finish
enhances the qualities
of the steel plate
from which it is made.

Capricorn console table

Probably the most
recognisable design
in the collection.

Here the base is in hand-
polished stainless steel,
its sweeping curves
complemented by a cool
Arabescato marble top,
with crisp chamfered
edges.

Lexington mirror
A thin sliver of steel
around a mirrored disc.
One of our simplest and
most elegant mirrors.

Echo console table

Inspired by a trip to the Arctic, with crisp lines and sheer faces. Here the 'Cool Grey' finish and opti-clear glass suggest icy splendour.

Paris dining table
Sleek and simple,
the curves of the *Paris*
base echo one
of the leading motifs
in the collection.
Here, the glinting
hand-polished

bronze of the base
combines with
the deep blue/black
hues of the ebonised
oak top to elevate
the table to new levels
of luxury.

Capricorn dining table
The signature piece
of our collection.
With its bold curves
and sculptural form
Capricorn exemplifies
Tom's design ethos:
clean and simple,
with harmonious
proportions and
a strong, distinctive
silhouette. Here
it is shown in a dark
and understated
'Bronze' finish.

Versailles console table
Big, bold loops of steel
create this exuberant
and decorative console
table. The asymmetry
of *Versailles* adds
sophistication to its free-
flowing form.
It is photographed
in our workshop.

Exe dining table

A solid wooden top spanning two elegant steel crosses. *Exe* is a modern take on an old refectory table - ideal for all occasions. It is shown here in natural finishes - a patinated and waxed steel base, and a book-matched solid elm top with natural, waney edges.

We have developed many unique specialist finishes for our metalwork,

using layers of powders, paints, and lacquers. Each is applied by hand.

Memphis coffee table

The gentle meanderings of rivers inspired the *Memphis* coffee table. There is a pleasing sense of movement in the undulating shapes of the solid metal frame. Here, the steel is softened by the 'Rose Pewter' specialist finish.

Capricorn
Conceived over twenty
years ago, *Capricorn*
is one of our most
enduring designs. It
requires great skill
and experience in both
the construction
and finishing.

Echo console table
The carefully calculated
angles of the *Echo*
console table create
a graphic, modern
structure

We put our heart and soul into everything we make, and are immensely proud to continue this Great British tradition of design innovation and excellence.

Everything is handmade to order, so it can be made to any size. And almost everything is available in a combination of materials – steel or bronze, with wood, glass, or marble. We supply many different types of wood and marble and have a wide range of different finishes. This brochure shows just a small part of what we do. To see everything please visit our website, tomfaulkner.co.uk.
